

AAPA 2017 QLD INDUSTRY LEADER AWARD WINNER

WE OPEN THE WAY

LES MILLAR

Les has been in the asphalt industry for more than 35 years, holding operational and senior management roles at Boral and Colas Group.

He was the industry leader in developing the new TMR asphalt specifications under the national harmonisation of specifications. He is recognised by his peers and clients as an experienced asphalt practitioner.

At industry level he is committed to driving changes to the specification and represented industry views as a respected industry member. He has been a leader in developing training programs for asphalt workers/laboratory technicians within his own organisations and at industry level.

Les is committed to the industry, continuous improvement and sustainability. He has contributed to the industry at AAPA's Queensland branch level, leading technical and training committees for several years. He has more recently been the Queensland nominee on the national training committee.

He communicates through detailed reports and action plans with his working groups. He is committed to closing out actions and getting commitment from his groups.

Les is a true industry leader who has demonstrated a remarkable commitment to asphalt.
