Celebrating  
**50 Years**  
of AAPA

# Conference Overview

Continuing a long tradition of AAPA conferences going back to 1971, the 18th AAPA International Flexible Pavement Conference will again be the primary meeting of flexible pavements professionalism Australasia. The Plant and Equipment Exhibition and the information-packed technical program of the conference will attract representatives from across the world including:

- State road agencies
- Local government
- Road building and construction
- Industry
- Academic institutions from across the world.

The theme of the 18th AAPA International Flexible Pavements Conference is Our Everlasting Roads - Enabling Future Mobility. The title refers to the changing demands that society and transportation technology place on the long-term investment that is road infrastructure. It also refers to our increasing technical ability to build perpetual pavements, roads that will last for an indefinite amount of time, while only requiring regular surface maintenance.

## The Conference themes include sessions on:

### Circular Economy

- Reuse of asphalt
- Use of recycled materials in roads
- Environmental product declaration and sustainability calculators
- Low temperature asphalt and spray seals
- Improved pavement design procedures
- Rejuvenator technology
- Public campaigns
- Flexible pavement technology for (air)ports
- Access to raw materials into the future

### Roads as a Service

- Impact of autonomous vehicles
- Intelligent transport systems
- Innovative pavement surfacing technology
- Future road marking
- Improving ride quality
- Worksite safety
- Local government roads
- Alternative road funding models
- Intelligent pavements
- Rural/metro network interfaces
- Community expectations for level of service
- Early engagement with the public
- Road funding linked to service levels

### Preservation and Rehabilitation

- Perpetual pavement technology
- Asset management strategies
- Innovative road maintenance approaches
- Surface enrichment
- Stabilisation
- Whole-of-life costing
- Rehabilitation design methods
- Improved pavement design procedures
- Pavement preservation treatments
- In situ remediation of end-of-life concrete pavements
- Alternatives to reconstruction

### Continual improvement

- Improved construction techniques
- Advanced manufacturing processes
- Measurement and verification
- Performance related mix design
- Spray seal technology
- Advanced binders
- Performance contracts and specifications
- Enhancing durability
- Proficiency testing
- Worksite safety
- Safer road construction systems or approaches
- Professional development and training
- Attracting the next generation pavement professionals

## Why sponsor?

Sponsorship provides an excellent opportunity to promote your organisation, new products and innovations, your expertise and capabilities to support your brand as well as maintaining a high profile within the industry before, during and after the event.

Your organisation will:

- Get the profile it needs to be part of the National leading industry association in the flexible pavements space.
- Benefit significantly from exposure to keenly interested, relevant and above all, influential audience in a diverse educational environment including plenary sessions, workshops and hands-on practical sessions away from the competitions of every day distractions.
- Have the opportunity to consolidate corporate relationships and expose your staff to their key markets.
- Be able to claim the cost of sponsorship as a legitimate tax deductible expense.
- Sponsors will be promoted through the AAPA website (over 6000 industry contacts) and through all promotional material including leading infrastructure magazines over the coming year.

## Delegates

- The 2017 17th AAPA International Flexible Pavements Conference attracted 680 delegates.
- The 2019 18th AAPA International Flexible Pavements Conference aims to bring together 900 delegates from all areas of industry both within Australia and from around the world including:
  - Road Contractors
  - Bitumen Suppliers
  - Asphalt Manufacturers
  - Binder Suppliers
  - Sprayed Surfacing Operators - Federal, State and Local Government
  - Road Workers
  - Engineers
  - Consultants
  - Tollway operators
  - Road Asset Stewards - Academics and students
